## AES Grants for Established Investigators

**Application deadline:** 23 March 2023

The American Epilepsy Society (AES) is proud to support established investigators working in **basic, translational, and clinical research for epilepsy, seizures, and related disorders**.

Applications are being accepted for the following grants:

- AES Seed Grants offer 'seed' funds up to \$20,000 to help enable established investigators pursue new and innovative directions in their labs
- AES Infrastructure Grants provide funds up to \$50,000 to facilitate the creation of national or international multicenter research programs.
- AES Research and Training Workshop Grants support scientific conferences and workshops that address timely and important topics in epilepsy research (amount offered is contingent upon available funds)

## Rare Epilepsy Partnership Award

**Budget:** 1 year / \$100,000

**Calendar:**

Letter of Intent Deadline : Monday, June 26, 2023  
Full Application Deadline : Wednesday, September 13, 2023  
Anticipated Award Start Date : Spring 2024

The Rare Epilepsy Partnership Award (1 year / \$100,000) will support the development of necessary research tools, techniques, model systems, and data collection platforms to stimulate and accelerate research on rare epilepsies. Each award will be co-funded by CURE Epilepsy and one or more of the rare epilepsy advocacy groups (partners) identified in the Request For Proposals. Applications must focus on one or more of the specific rare epilepsies that are represented by each group as well as address CURE Epilepsy's mission to cure epilepsy.

## MSCA Doctoral Networks 2023

*HORIZON-MSCA-2023-DN-01*

**Budget:** €434 800 000

**Single stage – Deadline:** November 28, 2023 at 17:00:00 Brussels time

These doctoral programs will respond to well-identified needs in various R&I areas, expose the researchers to the academic and non-academic sectors, and offer training in research-related, as well as transferable skills[1] and competences relevant for innovation and long-term employability (e.g. entrepreneurship, commercialization of results, Intellectual Property Rights, communication). Proposals for doctoral networks can reflect existing or planned research partnerships among the participating organizations.

MSCA Doctoral Networks are encouraged to lead to Industrial or Joint Doctorates.
