Pediatric SEEG Masterclass (November 23–27, 2026 Paris, France)

We are pleased to announce the **Pediatric SEEG Masterclass – Paris 2026**, an advanced training course dedicated to stereo-electroencephalography (SEEG) in children with drug-resistant epilepsy organized by Adolphe de Rothschild Foundation Hospital. This educational programme brings together leading international experts to provide state-of-the-art lectures, interactive case discussions and hands-on learning. It is an excellent opportunity for clinicians wishing to deepen their knowledge of pediatric SEEG and epilepsy surgery.

Upcoming events 2026 endorsed by ERN EpiCARE

XII Congreso de la Sociedad Española de Epilepsia

15 - 17 October 2026 (Córdoba, Spain)

Join the [SEEP Annual Congress](#), featuring workshops, symposia, plenary sessions, and oral and poster presentations. Renowned national and international experts in epileptology will share the latest advances, creating an outstanding scientific programme. We look forward to welcoming you to learn, collaborate, and exchange experiences with colleagues.

Know EpiCARE Working groups!

Working Group 8: **Pre-surgical evaluation and epilepsy surgery**

Surgery is now long established as standard management of carefully selected patients with focal epilepsy. There are many aspects, however, that can be particularly challenging and deserve special consideration in the evaluation for surgery and planning of surgical strategy.

Working Group 9: **Neonatal seizures**

Neonatal seizures are associated with poor outcome, but their management is challenging due to difficulties in diagnosis and treatment.

Working Group 10: **National networks**

Strengthening the links between EpiCARE and existing, or under development, national epilepsy networks and pathways for optimal epilepsy care is one of our priorities.

ERN EpiCARE Supporting Next Generation Epilepsy Experts

EpiCARE supports early-career clinicians to attend the 5th Video-EEG in Paediatric Epilepsies

EpiCARE will cover the **Early Bird registration fee for up to five early-career clinicians** working at **EpiCARE Member Centres** to attend the [5th Video-EEG in Paediatric Epilepsies](#), taking place in **Madrid, Spain (29-31 OCTOBER 2026)**.

Organised by the Spanish Epilepsy Society (SEEP) and endorsed by ERN EpiCARE and ILAE-Europe, this clinically oriented course provides comprehensive training in paediatric epileptology, covering the diagnosis and management of epilepsy across childhood. Emphasising electroclinical integration and the latest ILAE diagnostic criteria, it offers early-career specialists the opportunity to learn from leading European experts.

- **To apply for support:** Send us a brief CV and a letter with a few lines outlining your expectations from the course and your motivation to attend it in relation with your future career plans., to helpdesk@epi-care.eu, before: **10th of August**.
- [To Register to the course](#)

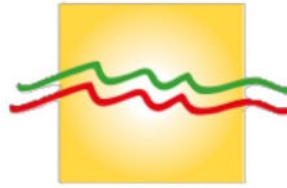

If accepted by the EpiCARE Education Council, please note that reimbursements will take place only after the course and reception of a certificate of attendance.
